PRODUCTS

ARMCHAIR MODEL RAILROADING

BUILD AND RUN A MODEL RAILROAD ON YOUR COMPUTER!

RUN TRAINS

Choose a track plan, assemble a train from a catalog of rolling stock, grab the control panel, and run trains! Cruise through the countryside, switch a busy yard, deliver the goods. Run as many trains as you can handle.

BUILD TRACK

Design and track your own layout using easy track and scenery tools. Test drive before you build! Unique tools make perfect curves, yards, switches, turntables. Choose from a catalog of scenery, or draw your own.

OPERATE

Define industries, load cars, let the ops wizard generate waybills, switchlists, work orders. Hone your switching skills!

RUN TRAINS ON EVERY ONE OF
LINN WESTCOTT'S CLASSIC
101 TRACK PLANS FOR MODEL RAILROADERS

FEATURES

REALISTIC OPERATION! Drive with stylish powerpack or compact toolbar. Coupling, uncoupling, yard mode, momentum braking, custom horns, chuff sounds, switching.

GREAT BUILDING TOOLS! Sketch track, yards, curves, industries, turntables, linked modules, transfer tables, tunnels, trains, switches. Unique tools make perfect circular curves, ladder yards with your choice of turnout angle.

READY-MADE SCENERY! Choose from a huge catalog of trees, buildings, roads, signals. Or create your own with easy drawing and styling tools. Add text for labels, import bitmap images, add animated gifs for extra action.

ACCURATE SIZING AND SCALING! Convert any layout to your favorite scale, from Z to G. Zoom in or out as far as you like. Precision grid, accurate car sizes, your choice of measurement units.

PLENTY OF LAYOUTS! Choose from thousands of track plans online or on DVD. Includes all of 101 Track Plans for Model Railroaders, contributions from users and professional track artists, large collection of satellite-photo layouts for operating on real rail centers.

LOTS OF CARS! Choose from thousands of stylish cars -- steam, modern, freight, passenger, European. Or paint and customize your own. Choose standard cars from the menu, or bring up the pictorial car chooser to browse through the others.

FULL OPERATIONS SYSTEM! Automatic generation of waybills, switchlists, schedules. Script your layout for automatic running. Define car loads, industry goods shipping and receiving. Switchlists are color-coded to show your work orders at a glance.

EASY TO USE! No learning curve, just open and go. Intuitive interface, convenient controls, complete built-in help. We are famous for our customer support. Fully granddad-approved.

FUN FOR KIDS! Play with sounds, animation, train crashes, unlimited speeds, Thomas the Tank Engine cars, simple kid-proof loop layouts. Teach the kids how to run a real railroad.
